OLD BUSINESS

MR. EVANGELISTA: COMMUTER PARKING-STREET PARKING

Harrison resident John Evangelista asked the Board what is being done about the parking situation when commuters come into town and park on residential streets taking up parking spaces in front of the houses of taxpayers.

Village Attorney Kraut said are you talking about on streets where they are violating the posted traffic parking restrictions?

Harrison resident John Evangelista said he is talking about streets that are not posted.

Village Attorney Kraut said so you are talking about streets where it is lawful to park.

Harrison resident John Evangelista said I live a few blocks away from the train station and I have people parking for twelve to eighteen hours on my street, Holland Street.

Village Attorney Kraut said if I understand your question, Sir, there are no time limitations for that street? The only tool that is useful in dealing with this is if the residents feel the issue is appropriate they can bring it to the Town Board and ask that time limitations be imposed on the street. Then if the Town Board believes it is appropriate they can impose, by law, time restrictions on the street. What you can't do is say you live there so it's okay for you to park there for fifteen hours but I don't live there or he doesn't live there and they can't park there.

Harrison resident John Evangelista said he understands that but what I'm concerned about is that parking from out of town commuters, who are not willing to pay the fees at the MTA Parking Lot and leaving their cars on a section of Holland Street that is not marked two to four hour parking. In the Town of Eastchester, within a four to five block radius of the train station parking permits are issued to the residents so that they can park between certain hours.

Police Chief Marraccini said Mr. Evangelista has a legitimate complaint regarding this matter. He is within proximately to the commercial district on Calvert Street and he is close to the train station. He does have reoccurring problems with commuters and people parking in front of his house. We can put time restrictions but that also puts a burden on the residents that live there. The streets that are surrounding the train station have time restrictions but the residents still have to move their cars or they are subject to fines. I know we have the approval to do the resident permit parking. These are areas that it will be helpful in. We would still do a time restriction on that street but the residents that have

permits would not be subject to the restriction. I think if maybe we could move forward on this it would be a good solution. The reality is that people that aren't residents can park anywhere they just have to abide by the time restrictions, it's the residents that can leave their car parked in front of their house.

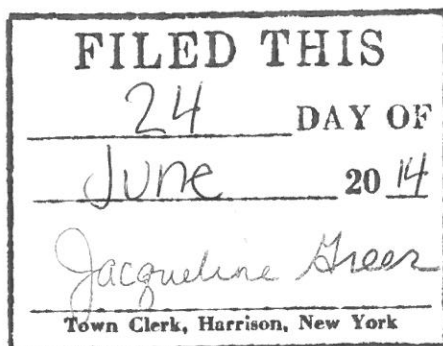

Town Attorney Allegretti said he wasn't sure that State Legislation covers that area in question. It's the downtown area from Oakland to Sunnyside and I believe Ellsworth or Nelson is the cutoff.

Police Chief Marraccini said I thought we took it down to Broadway. Realistically I would write the law. It is a benefit to the community if we can do it. I would look into some areas of Silver Lake to do it where you have people from White Plains parking in our Town.

Councilman Sciliano said it is disturbing to us because the State Legislator won't approve it.

Councilwoman Amelio said it doesn't make sense that this negatively impacts our own residents.

Councilman Cannella said we really tried four or five times and there were people who told us they were sponsoring and supporting it but for whatever reason we have not been able to get it through.
